

1. I'll cry, not because it's fun
But because they need to confirm that I'm alive.
2. I'll walk, not because I feel crawling sucks
But void of growth, who am I?
3. I'll be off to school
Long before I understand what it is.
4. I'll fall in love against my preferences
Just because Cupid is a bully.
5. I'll get heartbroken
Not because my love is plastic.
6. I'll hit an all-time low
And the only explanation I'd get: life's not fair.
7. I'll have less when I work more
I'll be told to trust the process.
8. I'll get all I craved for, and then
A whole new set of cravings surface.
9. I'll love God, but would waiver
For the devil's just a hater.
10. I'll have only 24hours a day
When we all know I could use more.
11. I'll do this and more,
not because I want.
12. Like, I don't mind being immortal,
But a hundred years and more, old age scams me.
13. And I die against my will.
